Experience

Senior Software Engineer **Nov 2025 - Present**
Tarento Technologies Pvt Ltd *Bangalore, India*

- **Mimir AI** - AI-powered Learning & Development platform integrated with Moodle LMS
  - Built the Mimir AI web app with **React, TypeScript, and Vite**, delivering responsive, accessible UIs for AI course generation
  - Integrated **LLMs (Claude via LiteLLM)** to power **AI-generated SCORM courses** and modernize **legacy SCORM 1.2** content
  - Integrated a **microservices backend** (FastAPI, Celery, PostgreSQL, Redis) via **REST APIs**, with **Azure AD SSO (OAuth2 / OIDC)**
  - Built a Moodle integration plugin with **19 xAPI event observers** and a SCORM push service, feeding **AI-driven skills-gap analytics**
  - Set up **GitLab CI/CD** pipelines with **Docker Compose** deployments and branch-based environment releases
  - Built **agentic AI tools with LangGraph** (**API Contract Designer**, **Frontend Test Generator**) with HITL, using **Claude Code**
- **ProactiveForHer (proactiveforher.com)**
  - Built accessible, responsive healthcare platform features from Figma using **React.js and Next.js**, with **NestJS (Node.js) REST APIs**
  - Led performance optimization with **code splitting, lazy loading, and CDN configuration**, improving load times
  - Optimized **AWS** infrastructure and implemented monitoring, **reducing server costs by 20%**; earned the **Customer Delight Award**

Software Engineer **Nov 2023 - Nov 2025**
Tarento Technologies Pvt Ltd *Bangalore, India*

- **IVF Access (ivfaccess.com)**
  - Built a complex, type-safe web application from scratch using **React, TypeScript and Vite**, with **Shadcn UI and Tailwind CSS**
  - Developed reusable, accessible component architecture with **Jest** unit and integration tests and **Playwright** end-to-end tests
  - Used **Lovable** for **AI-assisted code generation** and set up a **GitHub + Netlify CI/CD pipeline** for continuous delivery
- **Spinverse AI**
  - Built the frontend of an **AI-powered EU grant proposal generator** (**React, TypeScript, SPFx**) with **LLM-driven generation**
  - Built reusable **SPFx** components, integrated **RESTful APIs**, and used **debouncing and throttling** for UI responsiveness

Associate Software Engineer **Aug 2022 - Nov 2023**
Tarento Technologies Pvt Ltd *Bangalore, India*

- **Bihar Museum (biharmuseum.org)**
  - Built a high-performance, **cross-browser compatible** website with **JAMstack (React.js, Gatsby, Strapi CMS, CDN)**
- **Tarento (tarento.com)**
  - Led **legacy website modernization** to **JAMstack** (Strapi, Gatsby) and built a **React component library** with top **Lighthouse scores**
